SEND US A LINK FROM PHOTOS

One link to all your holiday photos and videos. Nothing to upload, nothing to wait for. Takes about a minute.

IN THE PHOTOS APP

1. Open **Photos** and tap **Select**.
2. Pick your photos and videos.
3. Tap the **Share** button.
4. Scroll down and tap **Copy iCloud Link**. On some iPhones it says **Create Shared Album Link** instead, and either one works.
5. Wait a moment. It copies quietly, with no pop-up, and lots of videos can take a minute.
6. Come back to your Holibusters order and press **Paste**.

LASTS 30 DAYS

The link lasts 30 days, so send it to us soon after you make it.

USE GOOGLE PHOTOS?

That works on iPhone too: select, tap Share, then Get link.

Step 2 of your order: “Send us a link”.

Steps follow the Photos share sheet on a current iPhone (October 2026). Menu names can vary slightly between iOS versions.
